

Water Well Screening

TEXAS WELL OWNER NETWORK

RESOURCES HELP LANDOWNERS PROTECT GROUNDWATER

The “Well Informed” Texas Well Owner Network (TWON) program is an educational program that gives well owners the opportunity to have their well water samples screened for common contaminants including fecal coliform, E. coli bacteria, nitrates and high salinity. The screening of the water samples is followed by a 1-hour explanation of the results, water well protection practices and focuses on wellhead protection and recommendations for remediating well contamination.

Well Informed Screening - September 16 & 18

- Castro County AgriLife Extension Office: 205 N. Broadway Street, Dimmitt
- Bailey County AgriLife Extension Office: 118 W. Avenue C, Muleshoe
- Lamb County AgriLife Extension Office: 100 6th Drive, Room B-5, Littlefield
- Pick up sample containers prior to September 16 from above locations
- Sample drop-off 8:30—10:00 a.m. September 16 at above locations

Results & Interpretation meeting:
Wednesday, September 18 @ 4:00 p.m.

West Texas Coffee
107 East Bedford Street, Dimmitt

The cost for sample is covered by High Plains UWCD #1
