Educational Meeting
Wednesday, September 18, 2024
9:00 a.m.—1:00 p.m.
AgriLife Extension office
225 Broadway, Suite 6, Plainview

TEXAS WELL OWNER NETWORK PROGRAM

The Texas Well Owner Network (TWON) program is a free, educational training for Texas residents who depend on household wells for their water needs. TWON is for private well owners who want to become familiar with groundwater resources, septic system maintenance, well maintenance, water quality and water treatment. Private well owners are independently responsible for monitoring the quality of their wells. Essentially, they are the operators of their own water system and are responsible for ensuring that their water is safe.

BRING YOUR WELL WATER SAMPLES!

Well owners should bring water samples Monday, September 16 to be screened for nitrate–nitrogen, total dissolved solids (TDS) and *E. coli* bacteria. Pick up approved sample containers with instructions at your local County AgriLife Extension office, Hale Extension, 225 Broadway Street, Suite 6, Plainview.

Drop samples at the same location where testing materials were picked up.

Samples are due on Monday, September 16 by 10:00 a.m.

The cost for the sample is covered by High Plains UWCD #1.

Pre-register by contacting Joel Pigg
Email: j-pigg@tamu.edu

Funding for the Texas Well Owner Network is through a Clean Water Act section 319 (h) nonpoint source grant from the Texas State Soil and Water Conservation Board and the U.S. Environmental Protection Agency. The project is managed by the Texas Water Resources Institute, part of Texas A&M AgriLife Research, AgriLife Extension and the College of Agriculture and Life Sciences at Texas A&M University.
